# Consent for Publication and Reproduction

## Education in Schools

It is usual for schools to have signed parental/caregiver consent for photographs/publications for children under the age of 18.

We would like you to consider signing the consent form below to enable Plunket Education in Schools to take photos in the classroom during a Plunket led delivery. In doing so, you are giving your permission for your student's images in possible future marketing and communications collateral and web publishing.

Any images intended for this use would be provided prior to use for final consent and to identify any students who might be exempt from this consent.
